

BLM is an insurance risk and commercial law firm with both a domestic and international focus. Our philosophy is to deliver positive outcomes for our clients and help them make their businesses more successful. Fundamentally we are helping to reduce the time and money spent on managing risk and resolving issues, whilst offering a practical, commercial and solutions driven approach to non-contentious business law.

We also deal with a wide variety of family and private client matters, providing advice on straightforward cases through to highly complex. Our aim is to become trusted advisors to our clients; we want to build long-term relationships with them and their families. Our Family team has decades of experience of helping people through the toughest of times. When it comes to planning your legacy, our Private Wealth team offers a pragmatic approach to ensure clients reach a clear and comprehensive solution. We work collaboratively with other professionals (such as accountants, wealth managers, financial advisers and other lawyers) to ensure that our clients receive the best possible advice.

BLM has a dedicated corporate social responsibility (CSR) committee that helps to manage CSR activities across the firm, touching on the community, our marketplace, the environment and our workplace. We are delighted to be the official legal services partner to the Dan Maskell Tennis Trust. In addition, BLM's Private Wealth and Family Law team are excited to be sponsoring the Dan Maskell Recreational Wheelchair Tennis Doubles Event.
